
Condo Management Company

Sprint 3

Submitted By (Team 17): Amar Mahmoud, Camila-Paz Vejar-Rojas, Andy Chhuon, Gulnoor Kaur, Jonah Ball, Mohammad Usman, Nusrath Zaman, Mark Tadros, James Bitharas

Documents Updated

- SAD
 - Added Class Diagram, updated Domain Diagram and Activity Diagram
- Risk Assessment and Risk Management Plan
- Release Plan
- Testing Report
- UI Prototypes
- Code Style & Code Quality
- Bug report

Implemented User Stories

User Story ID	Sub-User Stories	User Story Points (USP)	Priority	Status	Expected Sprint
1. User Profile Authentication	1.1. Validate unique profile	2	High	Done	Sprint 1
2. Condo Owner's Dashboard	2.1. Display profile information	3	High	Done	Sprint 2
	2.2. Overview of owned properties				
	2.3. Financial status				
	2.4. Requests submitted				
3. Condo Management Company Profile	3.1. Property Profiles	3	High	Done	Sprint 2
	3.2. Uploading condo files				
	3.3. Include detailed information for condo units				
	3.4. Arrange exchange of registration keys				
4. Financial System	4.1. Setting condo fees	5	High	Done	Sprint 2
	4.2. Condo fee calculation				
	4.3. Record operational budget				
	4.4. Generate annual financial reports				

7. Request Management System	7.1. Implement different request types	2	Medium/Low	Todo	Sprint 3
	7.2. Assign requests to employees				

Implemented User Stories (Sprint 1)

1. User Profile Authentication	1.1. Validate unique profile	2	High	Done	Sprint 1
--------------------------------	------------------------------	---	------	------	----------

John Doe

There is a leak in my condo.

I'm sorry to hear about the leak in your condo. I can assist you with that. Can you please provide me with more details about the location and severity of the leak?

Type your message...

End Chat

Testing

Tools: Jest and Cypress

Jest used for unit testing & Cypress for integration testing

Tests done:

15 tests:

- 11 Unit tests: Condo Owner's dashboard, Management profile, Financial system & Request and customer support system.
- 3 integration tests: User authentications(login/signup) & profile editing
- 1 acceptance test: Company listing creation.

Testing Status

Coverage: achieved 80-92% coverage on unit tests

File	% Stmts	% Branch	% Funcs	% Lines	Uncovered Line #s

Test Suites: 1 passed, 1 total					
Tests: 14 passed, 14 total					
Snapshots: 0 total					

All tests passed.

Testing Status

Sample integration test : <https://youtu.be/CjJrLS-7Tj8?si=9X4TywBME1fcD4ik>

Testing Status

Improvements

- Integration tests passed but plans to fix code coverage
- Get more familiar with jest, many members struggled with testing
- Simplify tests, get tests reviewed by peers.
- Plan to schedule tests, not a lot of time left for testing

Testing Status

Tools: Jest

We want to use cypress next sprint for Integration testing

Status: Started with front-end unit tests (User auth), acceptance tests plans, backend unit tests (Financial system)

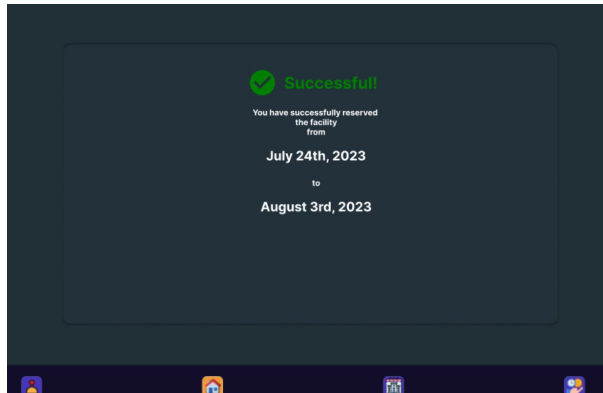

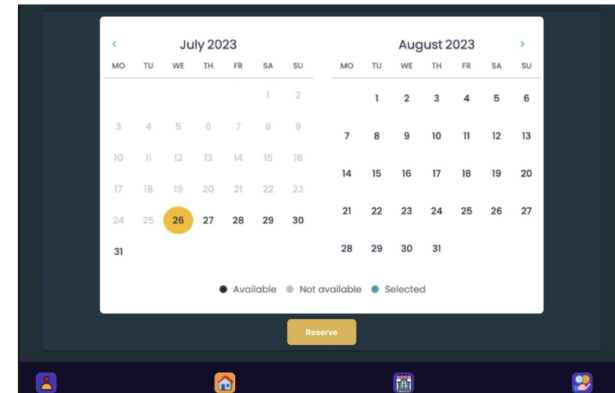

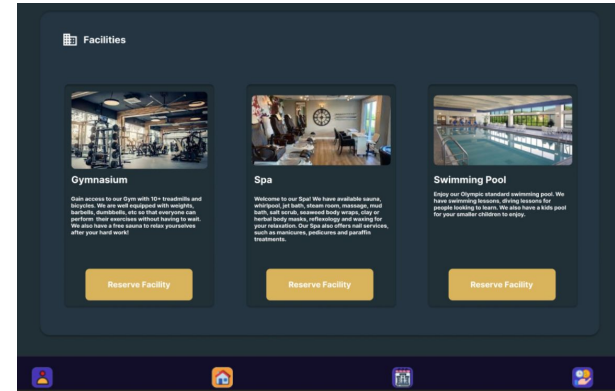

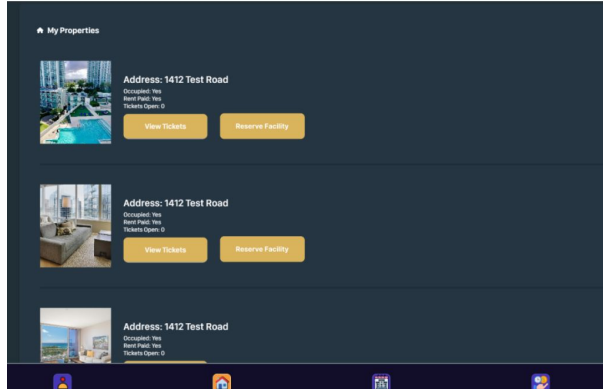

File	% Stmts	% Branch	% Funcs	% Lines	Uncovered Line #s
All files	80.21	67.74	93.44	78.57	
src	87.67	100	100	86.36	
app.ts	87.67	100	100	86.36	51-52,74-75,88-89,100,113-114

comment on commit b93fdc6

AndyChhuon commented on b93fdc6 11 hours ago

fixes issue #86

Issue ID	86		
Originator	Andy Chhuon	Email:	Signature: github
Submit Date	2024-03-21		
Summary	The pipeline does not pass, due to an OpenAI API key error.		
Severity	blocker		
Product	pipeline		
Component			
Version			
Platform	Github Actions		
OS	Windows

Prettier and ESLint with Config: *standard-with-typescript*

ToDo for Sprint 4

- Update SAD further. Include Architecture Decisions, add sequence diagrams and elaborate Use cases.
- Implementing the three User Stories assigned for Sprint #4.
- Host the website
- Updating all needed documents.
